

**MAY  
15-17  
2019****ANNUAL MEETING  
OF THE FRENCH SOCIETY  
FOR EXTRACELLULAR  
MATRIX BIOLOGY****ECM: FROM DISEASES TO WELFARE**

## ANNOUNCEMENT

The aim of the Société Française de Biologie de la Matrice Extracellulaire (SFBMEc) is to promote exchanges between researchers, to help scientific and medical research and to contribute to the training of researchers in the field of the extracellular matrix.

The SFBMEc will organize in 2019 in Reims its XXVIth national meeting. Different topics, focusing on the extracellular matrix, will be discussed: cancer, pathologies related to vascular aging, dermo-cosmetology and biomaterials.

They will be treated as plenary lectures (2 per session) given by internationally renowned speakers from Germany (Universities of Halle, Münster and Tübingen), Belgium (Katholieke Universiteit Leuven, KU Leuven) and France (Universities of Bordeaux and Reims Champagne-Ardenne, L'Oréal "Research and Innovation").

Each session will be completed by short oral communications and poster presentations. Through the topics addressed during this congress, the SFBMEc wants to enrich the interactions between basic research, the medical world and the industrial world.

## ORGANIZING & SCIENTIFIC COMMITTEES
